PROFESSIONAL SUMMARY

Frontend Developer with nearly 3 years of hands-on experience in web development, beginning as a self-taught developer and progressing into structured full-stack training and collaborative product development. Experienced in building responsive web applications and digital products with React, Next.js, TypeScript, Tailwind CSS, Supabase, and Prisma. Developed through independent projects, client work, startup collaboration, and formal full-stack training, with a strong focus on continuous learning, modern development workflows, and AI-assisted productivity.

TECHNICAL SKILLS

Strong	HTML5, Tailwind CSS, Git/GitHub, Supabase, pnpm, VS Code, Vercel
Intermediate	CSS3, JavaScript, TypeScript, React, Next.js, Prisma, Postman, TanStack Query, React Hook Form, Zod, shadcn/ui, Framer Motion
Working Knowledge	Node.js, NestJS, Render

AI-Assisted Development & Productivity

Uses GitHub Copilot, ChatGPT, Claude, and Gemini alongside prompt engineering to accelerate coding, debugging, technical research, documentation, and day-to-day development workflow.

PROFESSIONAL EXPERIENCE

Frontend Developer — GrowthGia

Paid Project — Ongoing

- Delivered responsive frontend implementation from provided UI/UX designs, including Home, Blog, Contact, and Merchant pages.
- Collaborated with a distributed startup team using React, shadcn/ui, Figma, and ClickUp.

SELECTED PROJECTS

EIMB — Electronic Internet Mobile Bank

Role: Founder · Product Designer · Full-Stack Developer

Stack: Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Prisma, Node.js

- Educational banking simulation featuring authentication, onboarding, account-number generation, internal transfers, savings plans, referrals, dashboards, and simulated debit-card functionality.

Status: Under Development [GitHub](#)

P2P Pay

Role: Co-Founder · Frontend Developer

Stack: Next.js, TypeScript, Tailwind CSS, Supabase, Prisma

- Mock P2P crypto-trading MVP exploring peer-to-peer exchange workflows and product UX; contributed to frontend development, product strategy, and technical planning within a distributed team.

Status: Under Research [GitHub](#)

TechMindsVerse OS

Role: Founder · Product Architect · Frontend Developer

Stack: Next.js, TypeScript, Tailwind CSS, Supabase

- Digital ecosystem platform combining client project visibility, academy management, and community functionality.

EDUCATION

Higher National Diploma (HND) — Metallurgy & Materials Engineering Technology

Federal Polytechnic Nekede • 2025 – Expected 2027 • Completed HND I

Ordinary National Diploma (OND) — Metallurgy & Materials Engineering Technology

Federal Polytechnic Nekede • 2021 – 2023

Full-Stack Development Program

CodeFactory Academy • June 2025 – January 2026 • Completed

CERTIFICATIONS

- Full-Stack Development Program — CodeFactory Academy
- Google Ads Search Certification — Google
- Create Digital Content and Collaborate Online — Cisco
- Principles of UI/UX Design — Cursa

LEADERSHIP & ADDITIONAL EXPERIENCE

Founder & Technology Builder — TechMindsVerse

September 2025 – Present

Frontend Development Mentor

Mentored 3 emerging frontend developers through practical technical guidance.

Departmental President

Metallurgical & Materials Science Department, Federal Polytechnic Nekede
